# SÉMINAI'R

*Informing Afghan refugees about resumption of studies, employment opportunities insertion and the development of skills in the legal and related sectors.*

## Presentation

The "Séminai'R" project takes the form of online webinars aimed at providing an overview of professional opportunities and study resumption programs for refugees. Its first version focuses on the legal sector, where regulated professions are generally considered difficult to access.

The first edition of "Séminai'R" is aimed at Afghan nationals, regardless of their previous knowledge of the legal sector. Online participation is not subject to any technical or linguistic prerequisites.

Entirely available in Dari, which is the originality of the program, "Séminai'R" also aims at creating a level of ambition in the participant, even before mastering the French language.

"Séminai'R" is carried by the Interministerial Delegation for the Reception and Integration of Refugees, which has partnered with the Paris Bar Association for this first session."
